## Leadership Academy 2017

Have you ever wished for an easy, effective way to strengthen the leadership abilities of your members - or even your own - in a highly compressed period of time?

---

The Leadership Academy is a premier leadership training program charged with facilitating the leadership abilities and roles of professional engineers around the world.

Theta Tau Central Office  
1011 San Jacinto, Suite 205  
Austin, TX 78701

Leadership is the ability to facilitate action and guide change. To lead is to direct, supervise, encourage, inspire, and coordinate. A good leader develops personal leadership skills and encourages and trains new leaders who will follow.

Do your members show initiative or do their hands have to be held every step of the way?

Can they make good management decisions or do they have to ask you for advice on even the most minor issues?

Are your members able to lead their chapter or do things fall apart unless you interrupt your busy schedule and step in to straighten things out?

If these things are happening at your chapter the Leadership Academy is your Answer.

The Leadership Academy will provide members with a foundational understanding of leadership so they may effectively transform their chapters.
